## **Safety Policy Statement**

SUBCONTRACTOR is committed to making safety a top priority. We realize the importance of providing a safe and healthy environment for our employees, other workers on site, and for the general public.

Our company believes that in order to maintain a safe and healthful workplace, the employees must take an active part in our safety program by learning safe practice standards, participating in safety meetings, practicing safe work habits, and using good judgment.

The goal of our safety program is to identify, eliminate, and control hazards. It is meant to protect everyone and is not an optional program. Following these guidelines is a requirement for employment with SUBCONTRACTOR.

Sincerely,

SUBCONTRACTOR
